

Academic Humility

Scholars have a thirst for knowledge. They seek to do better, strive to learn and try new and more things.

Ponder

Scholars think! Scholars know that quality thoughts take time to develop and they take time for reflection.

Multiple Perspectives

Scholars look beyond themselves and see how others view things. They understand that we do not have to agree to understand other perspectives.

Prepared

Scholars have their materials ready and are prepared mentally and physically with whatever is needed.

Vision/Goals

Scholars blaze trails and pave roads. They know having a goal is key, not the content of the goal. Scholars understand that without a path, there can be no vision.

Intellectual Risk Taking

Scholars challenge their minds and constantly force themselves to grow intellectually. They engage in activities outside their field to stay challenged.

Excellence

Scholars take pride in their work and seek excellence in their finished products.

Save Ideas

Scholars organize their learning and find ways to save their ideas: journal, binder, CD, thumb drive.

Perseverance

Scholars exercise their minds by trying challenging tasks and sticking to them, no matter how difficult.

Varied Resources

Scholars look at multiple resources including primary and secondary sources when learning.

Curiosity

Scholars always wonder: how does it work, feel, interact, etc. and are willing to ask questions and seek answers.
